Bowers Springs: One of Bolton's most popular conservation areas, Bowers Springs is a wonderful place for picnics, nature walks, and cross-country skiing. Although it is not a dog park, it is popular with dog owners. No swimming is permitted in either of the two man-made ponds. In addition to the ponds, the area features an expansive meadow and a large woodland which extends into Harvard 1. Trails connect to Vaughn Hills (map 2) in Bolton and other conservation land in Harvard (https://harvardconservationtrust.org/trails/). This whole connected conservation area was a joint purchase by the Town of Bolton and the Town of Harvard in 1973. Bowers Springs is also a host site of the Tom Denney Nature Camp, an outdoor program for local children sponsored by Bolton Conservation Trust.

Parking: Flanagan Rd. 14 cars. Do not park in the entryway or exit. NO PARKING ON FLANAGAN RD. 42.462750, -71.603917

Connections: On the west the Bartsch Connector and the Held Trail connect to the Vaughn Hills Conservation Area (map 2). The trails on the north connect to Harvard's Bare Hill Wildlife Sanctuary and eventually to the Mary Abbot Trail leading to Bolton Rd.

Suggested walks:

Short: Circuit of any of the ponds.

Longer: Circuit of both ponds, and the meadows. Challenging: Make a loop from Bowers Springs out to Vaughn Hills using the east-west trail on the Held CR. Climb the hills and/or make a circuit of the pond, then return west-to-east via the Bartsch Connector. Very Long: The Bolton Loop Trail passes through Bowers Springs.
