

Invasive Species Management

Volunteers Wanted at Bowers Springs Conservation Area

Event Date: Monday, March 15th 2021

Start: 12pm – 2pm

Locations:

Parking Area for Bowers Springs Conservation Area off of Flanagan Road

Recommended Gear: Participants should dress appropriately; (Layers are suggested) long pants, insect repellent, hat, gloves, long sleeves, and appropriate footwear.

Materials Needed: We encourage participants to bring water, their own snacks, loppers, a shovel, bypass pruners, and weed wrenches.

Please continue to maintain a social distance of 6' from attendants and other residents while on the property

RSVP required: please confirm your participation in the event by contacting the Town of Bolton Conservation Office so we may have a headcount and provide you with the required guidelines and safety training; 978-779-3304 or concom@townofbolton.com. The safety training must be completed prior to the event and you must send the certificate of completion to the conservation office as proof.

Pet Policy: For this event we encourage you to leave your canine companions at home to ensure no accidental breach of social distancing measures or hazards.

If a parking area is full please, we urge you to utilize one of the other trail heads into the Bowers Springs conservation area! Maps can be found at www.boltontrails.org or on the town website under the Conservation Commission page.

Join AmeriCorps Community Engagement Coordinator Jonathan Haarstick, AmeriCorps Land Stewardship Coordinator Matt Morris, Bolton Conservation Agent, and Bolton Trail Committee members as we care for our property while remaining socially distant!

Bowers Springs Conservation Area, needs your help!

Celebrate the onset of Spring with the staff and volunteers that maintain our conservation properties throughout Bolton! We are continuing the invasive species management plan efforts throughout our conservation properties by focusing on this property.

The team will have a couple weed wrenches provided by SuAsCo Cooperative Invasive Species Management Area organization (SuAsCo CISMA).

If you are a frequent visitor, a community member or someone just looking for a great volunteer opportunity this is the job for you!
